TICKS OR DOLLARS, WHICH?

Special Campaign to Be Launched By the U. S. Agricultural Department.

Asking farmers whether they desire to feed cattle or ticks, the U. S. department of agriculture is about to embark on a spectacular campaign throughout the tick-infested region of the South to arouse farmers to take the steps that will stop the annual tribute of \$50,000,000 now being paid to the tick. Attractively colored and illustrated literature will be used in this work.

As the result of the anti-tick campaign, one-third of the tick-infested area of the South, a region as large as the German Empire, has been cleared since 1906 but it is now desired to push the work much more rapidly than in the past as the country needs the meat the South could profitably supply if the tick were banished and the South needs the dollars that will roll in when the tick goes out.

The department stands ready to cooperate with any county that wishes to engage in this work. Agents of the Southern Railway's agricultural department will also aid farmers in warring on the tick wherever possible and will cooperate with all agencies engaging in this work.

REAL GREATNESS.

Christ has given us a measure of greatness which eliminates conflict. When his disciples disputed among themselves as to which should be greatest in the kingdom of heaven, He rebuked them and said: "Let him who would be chief among you be the servant of all." Service is the measure of greatness; it always has been true, it is true today, and it always will be true, that he is greatest who will do the most good.

And yet, what a revolution it will work in this old world when this standard becomes the standard of every day life.

Nearly all our controversies and combats arise from the fact that we are trying to get something from each other. Our enmities and animosities arise from our efforts to get as much as possible out of the world—there will be peace when our endeavor is to put as much as possible into the world.

Society will have taken an immeasurable step toward peace when it estimates a citizen by his output rather than by his income and gives the crown of its approval to the one who makes the largest contribution to the welfare of all.—Extract from W. J. Bryan's lecture, "The Prince of Peace".

AIN'T IT FINE?

If you will memorize this little poem by Douglas Mulloch, and repeat a verse of it every time something comes to worry you, you will never have a chronic case of the blues and will rarely be sad long at a time.

Sure, this world is full of trouble—

I ain't said it ain't.

Lord, I've had enough an' double,

Reason for complaint.

Rain and storm have come to fret me,

Skies were often gray;

Thorns and branches have beset me

On the road—but say,

Ain't it fine today?

What's the use of always weepin'

Makin' trouble last?

What's the use of always keepin'

Thinkin' of the past?

Each must have his tribulations,

Water with his wine.

Life, it ain't no celebration.

Trouble? I've had mine—

But today is fine!

It's today that I am livin'

Not a month ago;

Havin', losin', takin', givin',

As time wills it so.

Yesterday a cloud of sorrow

Fell across the way;

It may rain again tomorrow,

It may rain—but, say,

Ain't it fine today?
